## **CONDITION MONITORING OF POWER EQUIPMENTS**

Trouble-free operation of the Power Equipments makes industry successful. Condition based assessment is essential to know the present working condition and to predict the future service life of Power Equipments.

Shanthala Power Limited, Hubballi, has assessed more than 1,00,000 Power Equipments of different capacity, different make and different age group in India and aboard.

We have developed customer data bank for power equipments test results, which are repeatedly tested, computed and analyzed since last 23 years.

We have a team consisting of experts, state of art test equipments, software and mobile vans to access the healthiness of power equipments at your site.

### Condition Monitoring of Transformer

1	Insulation Resistance (IR) Test
2	Polarization Index (PI) Test
3	DC Absorption Test
4	Capacitance & Tan Delta Test
5	Leakage Current Test
6	Step-Up Voltage Test
7	Dielectric Spectroscopic Test (DIRANA)/(IDAX)
8	DC Winding Resistance Test
9	Neutral Floating Point Test
10	Turn Ration and Phase Angle Error Test
11	Excitation Current Test (at high Voltage)
12	Sweep Frequency Response Analysis (SFRA)
13	Magnetic Current Test
14	Magnetic Balance Test
15	Transformer oil Tests (Main Tank-Top/Bottom/OLTC )
	BDV, PPM, IFT, Acidity, DGA, Sludge, Resistivity, Flash Point,
	Tan Delta, Furan Analysis
16	Physical Condition Assessment of Transformer
	1. Cooling System
	2. Oil Leakage Assessment
	3. OLTC
	4. Earthing
	5. Paint
	6. Breather
	7. Missing/Damaged Parts
	8. Cable Assessment

## **I. Transformer oil tests as per IS: 1866**

- 1 Color and Appearance
- 2 Break Down Voltage (BDV)
- 3 Moisture Content
- 4 Dielectric Dissipation Factor (Tan Delta)
- 5 Resistivity
- 6 Neutralization Number (Acidity)
- 7 Interfacial Tension
- 8 Sludge
- 9 Flash Point
- 10 Dissolved Gas Analysis
  - a. Methane
  - b. Ethylene
  - c. Ethane
  - d. Acetylene
  - e. Carbon Monoxide
  - f. Carbon Dioxide
  - g. Hydrogen
  - h. Total Gas Content %by Volume
- 11 Furan Analysis
- 12 Density
- 13 Kinematic Viscosity
- 14 Pour Point
- 15 Polychlorinated biphenyl's (**PCB**)
- 16 Inhibitor Content Test
- 17 Corrosive Sulfur

Since - 1999

## **II. Transformer oil Filtration and Overhauling of Transformer**

### **A. Services**

- a. Transformer oil Filtration
- b. Transformer Oil Leakage Arresting
- c. Replacement of Bushings, Valves, Gaskets, "O" Rings, Nut & Bolts Ext.
- d. Transformer Overhauling
- e. Servicing of OLTC
- f. Painting

### **B. Equipment Details.**

- a. 10KL-Oil Filtration Machine-01
- b. 4.5 KL Oil Filtration Machine-01
- c. 3KL-Oil Filtration Machine-02
- d. 10KL Oil Storage Tanker-01
- e. Air Dryer -01
- f. Online Moisture Content -01
- g. Due Point -01

### **C. Supply**

- a. New Transformer Oil
- b. Silica Gel
- c. Breather Set

Since - 1999

## **Condition Monitoring of Electrical Equipment**

### **Electrical Tests on CT:**

Capacitance & Tan Delta.  
Insulation Resistance (IR)  
DC Absorption Test.  
Ratio Test  
DC Winding Resistance  
Knee Point

### **Electrical Tests on PT:**

Capacitance & Tan Delta.  
Insulation Resistance (IR)  
DC Absorption Test.  
DC Winding Resistance

### **Circuit Breaker Testing:**

Measurement of Tripping & Closing Time  
Measurement of Contact Resistance  
Insulation Resistance (IR)

### **Sub-Station Lightning Arrestor:**

Measurement of 3<sup>rd</sup> Harmonic Resistive  
Leakage Current.  
Insulation Resistance

### **Earth Pit Tests:**

Earth Resistance

### **Earth (Discharge) Rod:**

AC Dielectric Strength

### **Earth (Rubber) Mat:**

AC Proof Voltage  
Leakage Current

### **Hand Gloves Testing:**

Proof Voltage  
Leakage Current

### **Electrical Tests on HV Cables:**

Insulation Resistance (IR)  
Polarization Index (PI)  
DC Absorption Test  
DC Winding Resistance  
Leakage Current  
Partial Discharge  
Capacitance & Tan Delta.

### **Thermography (Temparature Scanning):**

Electrical Equipment

### **Partical Discharge Testing:**

Switchgears, Pannels,

## **CONDITION MONITORING OF GENERATOR**

### **A. TEST ON STATOR**

1. IR & PI& DC absorption Test
2. DC Winding Resistance measurement
3. Capacitance & Tan delta Test
4. DC Leakage Current /Step Voltage Test
5. Partial discharge Test
6. RTD element check
7. Dielectric Discharge Test

### **B. TEST ON ROTOR**

1. IR & PI
2. Digital RSO Test
3. DC winding resistance measurement

### **C. TEST ON EXCITER**

1. Insulation Resistance
2. DC winding Resistance measurement

Since - 1999

## **CONDITION MONITORING OF MOTOR**

### **1. On-line Test**

- a. Electrical Signature Analysis
- b. Vibration Analysis
- c. Acoustic Emission Analysis

### **2. Off-line Test**

- a. Insulation Resistance & Polarization Index
- b. Dielectric Discharge Test
- c. DC Winding Resistance
- d. Tan Delta & Capacitance Analysis
- e. PD Test

Since - 1999

**Shanthala**

## **SCOPE FOR CALIBRATION OF MEASURING INSTRUMENTS**

### **ELECTRICAL**

- Multimeter
- AC/DC Clamp Meter
- Leakage Current Tester
- AC/DC Ammeter
- AC /DC Voltmeter
- Frequency Meter/ Indicator
- Watt Meter
- Power Factor Meter
- Multifunction Calibrators
- Panel Meters
- Motor Checker
- LCR Meter
- Mili ohm Meter
- Micro Ohm Meter
- Insulation tester
- Mega Ohm Meter
- Earth Resistance Tester
- Kelvin Double Bridge
- Wheatstone Bridge
- Shunts
- High voltage Tester
- Non contact Voltage Detector
- HV Probes
- HI Pot Kit
- BDV/Oil Test kit
- Phase Sequence
- Oscilloscope
- HI Pot test Kit
- Capacitance & Tan delta Kit
- Capacitance Meter
- Inductance Meter
- Welding Machine

### **MECHANICAL**

- Pressure gauge
- Vacuum Gauge
- Pressure indicator
- Pressure Switches
- Pressure Calibrator
- Dead weight Tester
- Torque wrench
- Viscosity cup
- Venire Caliper
- Micrometer
- Height Gauge
- Depth Gauge
- Bore Gauge
- Screw Gauge
- Surface Plate
- Thread Gauge
- Thickness Meter
- Projection Gauge

### **THERMAL**

- Temperature indicator
- Thermometer (all types)
- Thermocouple
- Temperature gauge
- Temperature controller
- Temperature Switches
- Temperature Calibrators
- RTD Sensor
- Oil Temp Gauge (OTI)
- Winding Temp Gauge (WTI)
- Hot air oven
- Muffle Furnace Infrared Thermometers
- Thermal Imager
- Camera
- Temperature Switches

Since - 1999

## **SCOPE FOR CALIBRATION OF MEASURING INSTRUMENTS**

### **ANALYTICAL**

- PH Meter
- Conductivity
- Meter
- Pipette
- Burette
- Volumetric Flask
- Weighing
- Machine
- Weighing Buts
- Measuring Tape
- Stainless Scale
- Winding Temp Gauge (WTI)
- Hot air oven
- Muffle Furnace
- Infrared Thermometers
- Thermal Imager
- Camera
- Temperature
- Switches

### **COMMUNICATION DEVICE**

- Frequency Counter
- Radio Communication Test Set
- Nav Analyzer
- Portable ILS Receiver

### **OTHERS**

- Lux Meter
- Sound Level
- Meter
- Anemometer
- TuTurns Ratio Meter
- Hand Gloves
- Due Point meter
- Moisture Meter
- Vibration Meter
- Gas Detector
- Timers/Stop Watch
- RCD Tester
- CT/PT
- Energy Meters (Offline/Online)
- Relays
- Primary/Secondary
- Injection Kit
- Tacho Meters
